In SAP there is facility to create report using to join SAP Table without any enhancement.

Let us see how to create Report. Here we are going to create Purchase order Report by combine sap table EKKO & EKPO

EKKO- Header data of PO EKPO- Item data of PO

Step-1

- Run Transaction Code: SQVI- Quick Viewer.
- **O** Give report name & Click on Create Button.

Step-2

1) Give Title for Report 2) Select table - Table Join 3) Layout- Basis Mode

Once you added table System will create link TWO FEILD which is COMMON between table.

Here You can see PO number and Item Number is common between both tables so that system has created Link.

Base on this common field system will Pull report from database.

As Per Your requirement you can create link between Technical field, so that Just drag the one field to another field.

Make sure that Common field will be there in table for which you want to create report by combine tables.
